SUMMARY

Full Stack Developer skilled in **Next.js, React, Bubble.io, Flask, Node.js, and MySQL**, experienced in building scalable web applications, REST APIs, dashboards, and production-ready systems. Proficient in modern AI-assisted development workflows using tools like **Claude Code, OpenAI Codex, ChatGPT, and GitHub Copilot** to accelerate development, debugging, and system design.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, PHP, Java, SQL

Frameworks & Platforms: React, Next.js, Node.js, Express, Flask, Bubble.io, Tailwind CSS, Material-UI, Angular

Databases & APIs: MySQL, REST APIs, GraphQL APIs

Developer Tools: Git, GitHub, VS Code, Postman, Vercel, Notion, Claude Code, OpenAI Codex, GitHub Copilot

Concepts: OOP, SDLC, Agile Development, System Design, Design Patterns

EXPERIENCE

Web & Bubble.io Developer

Jan 2026 – Present

Digitenic, Islamabad

- Develop and maintain scalable web applications using Next.js and Bubble.io with REST API integrations.
- Built responsive UI components, dynamic workflows, reusable modules, and optimized database structures for production-ready systems.
- Collaborated with clients, designers, and backend developers to deliver modern web and no-code solutions efficiently.

Full Stack Developer

Jun 2025 – Dec 2025

SIBA Testing Service (STS)

- Developed and maintained scalable STS web portals using Angular, .NET Microservices, and REST APIs for large-scale testing operations.
- Built QR-based certificate verification systems along with internal candidate attendance and slip verification modules integrated with centralized databases.
- Automated Crystal Reports generation for certificates, answer sheets, candidate slips, seating plans, and other operational documents.

PROJECTS

Handy Movers – Smart Moving Marketplace | Bubble.io (Low-Code), Figma, Workflows, APIs

- Built a low-code marketplace platform in Bubble.io for managing moving service requests with structured multi-step data collection.
- Implemented automated workflows to match and assign customer requests to relevant service providers.

- Developed dashboards for companies and admin to manage requests, payments, subscriptions, and platform operations.

Certificate Verification System | Angular, .NET, MySQL, QR

- Built real-time certificate authentication system using unique QR codes.
- Developed a secure .NET API for instant certificate validation.
- Integrated with MySQL database for storing and retrieving certificate data.

Digital Attendance System | Angular, .NET, MySQL, QR Automation

- Automated QR-based attendance system for candidate slips.
- Connected to MySQL database to maintain accurate attendance records.

SmartEval – AI Course Assessment | Next.js, Flask, MySQL, Gemini

- AI-powered evaluation platform for BSCS subject assessments using Gemini API.
- Course management, rubrics upload, question generation, and feedback dashboards.
- Role-based interfaces for faculty and students with secure backend integration.

AI Assignment Evaluator | Next.js, Flask, MySQL

- Role-based assignment evaluation platform using NLP to auto-generate feedback.
- Structured dashboards, improved submission workflows, and API-driven grading.
- MySQL-backed data models for secure storage and analytics.

EDUCATION

Sukkur IBA University

B.S. Software Engineering | CGPA: 3.23/4.0

Sukkur, Pakistan

Oct 2021 – Jun 2025
